LeadCove

Brand kit · the visual + voice system for the LeadCove platform.

Owned by: Miami Metro LLC · Florida
Sole Member: Jules Cordero (100%)
Co-founders: Jules Cordero & Javier (Xavi) Dalmau
Document version: 1.1 · April 30, 2026
Source: `leadcove-site/assets/brand/`

1 · Color palette

Two-color core. Supporting colors used sparingly. Don't introduce new accents without revising this document first.

Navy
#0B2545

RGB · 11, 37, 69

Primary brand color. Backgrounds, body text on light, mark container, headlines.

Teal
#0E9F95

RGB · 14, 159, 149

Accent / action. Mark waves + sun, CTAs, links, success states.

Navy-2
#13335F

RGB · 19, 51, 95

Lighter navy for gradients and hover states on dark surfaces.

Teal-2
#0B807A

RGB · 11, 128, 122

Darker teal for button hovers and secondary teal accents.

Cream
#FBF8F3

RGB · 251, 248, 243

Warm secondary background. Sidebars, modals, quiet sections.

Sand
#F5EDE1

RGB · 245, 237, 225

Slightly warmer cream — banners, callouts, post-CTA reassurance.

Ink
#0F172A

RGB · 15, 23, 42

Body text on light backgrounds.

Muted
#64748B

RGB · 100, 116, 139

Secondary text, captions, metadata.

2 · Typography

Two families. Both freely available via Google Fonts.

FRAUNCES · WEIGHTS 400/500/600/700 · DISPLAY + HEADLINES

Pick your plan.

You can't contact a prospect without their data.

Display sizes use letter-spacing –0.02em for a modern, tight look. Body sizes stay at default tracking.

INTER · WEIGHTS 400/500/600/700 · BODY + UI

LeadCove is the all-in-one prospecting platform built for real estate agents. Bring your list, we deliver the owner data — name, phone, and/or email — quickly and simply.

Join the waitlist →

FAMILY	WEIGHT	USE	SYSTEM FALLBACK
`Fraunces`	600 (semi-bold)	Section titles, plan names, page H1s, pull quotes	`'Times New Roman', Georgia, serif`
`Inter`	400 / 500 / 600 / 700	Body, UI labels, buttons, metadata, navigation	`-apple-system, BlinkMacSystemFont, system-ui, sans-serif`

3 · Logo system

Three lockup formats × two color modes (default + reversed for dark backgrounds). All in vector; raster pre-rendered at standard sizes.

Primary horizontal lockup

The default. Use everywhere the mark + name belong side by side: site headers, navigation, email signatures, slide decks.

svg/logo-horizontal.svg · default

svg/logo-horizontal-light.svg · for dark bg

Stacked lockup

Use when horizontal real estate is scarce — square avatars, business cards, app splash screens.

LeadCove

svg/logo-stacked.svg · default

LeadCove

svg/logo-stacked-light.svg · for dark bg

Mark only · the wave + sun glyph

Favicons, app icons, social profile pictures, watermarks. Always include the rounded-square container in the primary variant; mono variants drop the box.

svg/mark.svg · primary

svg/mark-light.svg · transparent bg

svg/mark-mono-navy.svg · single color

svg/mark-mono-white.svg · reversed

Wordmark only

When the mark is already adjacent or context makes the icon redundant.

LeadCove

svg/wordmark.svg

LeadCove

svg/wordmark-light.svg

4 · Logo usage rules

Pick the right file

SCENARIO	USE
Browser favicon	`mark_32.png` or `mark.svg`
iOS / Android app icon	`mark_512.png` / `mark_1024.png`
Twitter / LinkedIn / Facebook profile	`mark_512.png`
Site header / nav	`logo-horizontal.svg`
Dark hero / press release banner	`logo-horizontal-light.svg`
Email signature	`logo-horizontal_600.png`
Slide deck title slide	`logo-horizontal_1200.png` or `logo-stacked_960.png`
Business card	`logo-stacked.svg`
Single-color print / embossing	`mark-mono-navy.svg`
Sponsor row / partner deck (everyone monochrome)	`mark-mono-navy.svg`

Clear space + minimum size

Reserve a margin around the logo equal to the height of one wave glyph (~20% of the mark height). No element — text, photo, badge — encroaches inside that margin.

LOCKUP	MINIMUM WIDTH
Mark only	16 px (favicon — anything smaller becomes a single dot)
Horizontal lockup	120 px (~1 inch in print)
Stacked lockup	80 px square

Don'ts

- Don't stretch / squish the logo. Always uniform scaling.
- Don't rotate or skew.

- Don't swap the colors (no navy waves on teal box, etc).
- Don't put the full-color mark on a high-contrast colored background — use the mono variant if the bg is neither white, cream, nor navy.
- Don't use the wordmark in a different typeface ever. Always Fraunces 600.
- Don't apply effects (drop shadows, gradients, glows) outside what's already in the SVG file.

5 · Voice + messaging rules

Vocabulary discipline is part of the brand. These rules are enforced in code (memory entries) and on every UI string we ship.

Forbidden words / phrases

~~"phone + email"~~	→	"owner data — name, phone, and/or email"
~~"free" (anywhere user-visible)~~	→	"no charge", "included", "covered"
~~"tenant"~~	→	"user", "account"
~~"Miami" (in marketing — except legal entity name)~~	→	"Florida"
~~"Resolve" (the verb)~~	→	"Enrich"
~~"propagated"~~	→	"same-owner match"
~~Any 3rd-party software brand without legal review~~	→	"our skip-trace vendor", "our payment processor"

The job-to-be-done framing

> "*You can't contact a prospect without their name, phone, and/or email. LeadCove solves this — quickly and simply.*"

This is the single sentence the brand is built around. Every marketing message either restates it, reinforces it, or follows from it.

Hard rules with money

- **"No data, no charge"** — billing rule + marketing promise in lockstep. Misses don't bill.
- **Same product on every plan** — only the included monthly credits change. No per-tier feature gating.
- **Customers bring their own list** — we don't promise to source data.
- **Top-up packs are optional** — never marketed prominently next to the monthly plans.

6 · Domain & entity

PRIMARY DOMAIN	`leadcove.io`
CUSTOMER DASHBOARD	`app.leadcove.io`
OPERATOR DASHBOARD (ADMIN)	`admin.leadcove.io`
OPERATIONS EMAIL	`hello@leadcove.io`
LEGAL / BILLING EMAIL	`hello@miamimetro.us`
LEGAL OWNER	Miami Metro LLC · Florida · EIN 42-1820681
PRINCIPAL PLACE OF BUSINESS	10600 SW 67 Avenue, Pinecrest FL 33156
SOLE MEMBER-MANAGER	Jules Cordero (100%)
CO-FOUNDERS	Jules Cordero & Javier (Xavi) Dalmau
FOOTER DISCLOSURE	© 2026 LeadCove · a brand owned by Miami Metro LLC, Florida

LLC ownership disclosure is required on every legal page (Terms, Privacy, TCPA notice). The only public surface where the word "Miami" appears is in the legal entity name "Miami Metro LLC" — never in marketing copy.

7 · Where files live

LOCATION	WHAT'S THERE
`leadcove-site/assets/brand/svg/`	10 vector logo files — vector primary, edit / scale anywhere
`leadcove-site/assets/brand/png/`	34 raster logos at standard sizes (16 → 2400 px)
`leadcove-site/assets/brand/index.html`	Browser preview of every variant + palette + type
`leadcove-site/assets/brand/BRAND-KIT.md`	Markdown reference (this PDF's source-of-truth)
`leadcove-site/assets/brand/render-png.py`	Regenerates PNG renders from SVGs (cairosvg)
`leadcove-site/assets/brand/TRADEMARK-FILING-PREP.pdf`	Attorney handoff document for USPTO filing
